

I am writing to make comment on the FCC current discussion on allowing ownership of more stations and crossover ownership of different media.

I do believe that in our Democracy a free and unteathered press is a corner post of maintaining our freedoms. With the decreasing number of managing groups owning a higher and higher number of total stations I do believe we as a nation are suffering.

The airwaves are suppose to be owned by we the people and leased out for our best interest. It is a dis-service to our nation to have few perspectives willing or able to be broadcast to the masses. We need to reclaim our airwaves and lease them out to corporations which seek and do extend the enlightened thought to the people. We do not need to continue to ensure some who already own a lot are allowed toGov't access.

Act in the interest of the voters and not the businesses. I would like to see action that would encourage more diverse independent editorial for all.
